Limited commercial licence

Your licence and proof of purchase

Version 2.0 - 11 November 2026. This limited, non-exclusive commercial licence covers the specific oracle or tarot deck identified on your paid Veilbound Realms order. It covers the named purchaser or one business identified on that order, worldwide. Keep this PDF and your receipt together. This PDF alone does not establish a commercial licence.

Lifetime limit: 100 decks and 100 guidebooks

You may produce a maximum of 100 physical copies of the purchased card deck and 100 physical copies of its accompanying guidebook, whether sold together or separately. These are lifetime production limits for that title, not annual allowances. Copies produced for sale, promotion or free distribution all count. A partial deck or a selection of its cards counts as one deck copy; a reproduced book or substantial extract counts as one guidebook copy. No other merchandise is authorised.

One allowance across your business

Count production across all sales channels, trading names, employees, contractors and production providers together. Buying another copy of this licence does not increase or reset the allowance. Purchases through other people or associated businesses must not be used to circumvent the limit. A separate deck licence does not permit further production of this title.

Direct retail sales only

You may sell authorised physical copies directly to end customers through your own shop, website, marketplace listings or events, at prices you choose. Wholesale supply, distribution through other retailers, sublicensing and third-party resale programmes require a separate written agreement. No recurring royalty is due for production within the stated allowance.

Printing providers and print-on-demand

A professional printer or fulfilment provider may make and deliver authorised copies solely on your behalf within the allowance. It receives no independent rights. Give it the files only for the agreed work, require it not to reuse or share them, and require deletion after the work is complete. You remain responsible for its production quantities. Uploading files to public print-on-demand catalogues or shared design libraries is prohibited.

Limited commercial licence

No digital resale or file distribution

The supplied ZIP archives, PDFs and artwork are production files for your authorised use. Do not sell, share, give away, upload or otherwise redistribute them or their download links, including to purchasers of physical products. The narrow exception is access by employees and production providers solely for your authorised work. You may not transfer this licence, grant reproduction rights, or sell commercial or master resale rights.

Credits, presentation and ownership

You may resize and arrange the supplied PDFs for authorised printing, add separate packaging and your seller details, and use reasonable sample images to advertise the authorised physical products. Keep Veilbound credits and do not claim authorship of the underlying deck or endorsement by Veilbound Realms. No rights to other decks, source files, prompts, website code or future editions are included. This licence transfers no ownership and promises no exclusivity in traditional myths or AI-generated elements.

Records and additional permission

Keep accurate production records and provide reasonable evidence of quantities if requested by Veilbound Realms. Production or distribution outside this licence is not authorised. Before exceeding the limits, arranging wholesale distribution or beginning any other excluded use, obtain a separate written agreement. Contact us to request a large-volume print licence: support@veilboundrealms.com. Include the deck name, proposed quantity, sales channels and business details. An enquiry alone does not grant permission.

Version, earlier orders and conflicting instructions

Version 2.0 applies to new purchases where these terms are presented at purchase. Earlier purchases retain their original agreed licence terms; this revision does not retrospectively reduce those rights. For purchases under version 2.0, this licence replaces conflicting commercial resale or seller instructions in older package notes and PDFs. Personal-use restrictions are relaxed only as expressly permitted here; customers receive no reproduction or digital-file rights.

Your sales, support and statutory rights

You handle printing quality, listings, customer support, taxes and applicable legal obligations. No physical products, printing service or online membership are included. Your statutory rights are unaffected. For purchase support or licensing enquiries, contact support@veilboundrealms.com.
