Personal-use licence

What this covers

The printable oracle cards, matching backs and guidebook in this download. Where this licence is supplied by Veilbound Realms, your order identifies the deck. Where supplied by an authorised commercial seller, it applies to the deck in the same customer package. Version 1.0 - 10 November 2026.

You may

Download, keep backup copies, read the PDFs on your devices and print copies for your own personal, non-commercial use. You may ask a print shop to print your personal copies; give it the files only for that job and ask it not to retain or reuse them.

Please do not

Sell printed copies, sell or give away the PDF files, upload the complete deck or guidebook for public access, share download links, or grant anyone resale rights. A separate commercial licence from Veilbound Realms is required for commercial reproduction or redistribution.

Printing and compatibility

These are digital PDF files, usually delivered in a ZIP archive. Use a ZIP utility and PDF reader. Print A4 sheets at Actual size / 100%; test duplex alignment with plain paper before cardstock. Paper, ink and printer settings affect colour. No physical cards, paper, printing service or equipment are included.

Scope and ownership

This is permission to use the supplied edition, not a transfer of ownership, trade marks or an exclusive licence. Artwork and creative material may include AI-generated elements. No exclusive rights in ancient myths, traditional figures or AI-generated elements are promised. Website source code, original artwork files and prompts are not included.

Purchases, support and rights

A PDF purchase is a one-off purchase of that deck. It does not include Oracle Library subscription access, private online readings, future decks or future editions. Your statutory consumer rights are unaffected. For help with a purchase from Veilbound Realms, contact support@veilboundrealms.com; for a purchase from another seller, contact that seller first.
